But recent pioneering experiments in neuroscience not only challenge the notion of the fixed brain, they also open up the possibility of altering the brain's capacity, even into old age. The brain can adapt, heal, renew itself after trauma and compensate for disable...
introduce the three important structures: conscious, subconscious and unconscious mind. Today, we have come a long way from those times and psychoanalysis, was among the first people in the world to talk about human personality and the way our mind is structured. He was the one to introduce the three important structures: conscious, subconscious and unconscious mind. Today, we have come a long way from those times and we definitely know a lot more information on how the mind functions and the way these three structures are interconnected.
